Residents living in low lying and mountainous areas under signal nos. 1 and 2 are alerted against possible flashfloods and landslides.

The public and the disaster coordinating councils concerned are advised to take appropriate actions.

In order to better inform/warn communities, you are reminded to disseminate these through local/community leaders and through your local media, including community radio stations. Conduct press briefings as often as needed. This local effort will complement and reinforce efforts at the national level. Emphasis should be on proactive actions – evacuation rather than rescue.
